CONTENTS

No. 1, JULY, 1948

Biochemical Mutants of Bacterial Viruses. M. Delbrück 1
The Nutrition of Brucellae: Growth in Simple Chemically Defined Media. Philipp Gerhardt and J. B. Wilson 17
Studies on the Anaerobic Micrococci. I. Taxonomic Considerations. Edward L. Foubert, Jr., and H. C. Douglas 25
Studies on the Anaerobic Micrococci. II. The Fermentation of Lactate by *Micrococcus lactilyticus*. Edward L. Foubert, Jr., and H. C. Douglas 35
The Microbacteria. I. Morphological and Physiological Characteristics. Raymond N. Doetsch and Michael J. Pelczar, Jr. 37
The Role of Peroxide in the Biological Effects of Irradiated Broth. Orville Wyss, J. Bennett Clark, Felix Haas, and Wilson S. Stone 51
The Effect of Human Serum on the Dilution Bioassay of Penicillins G, X, and K. Harry Eagle and Harold A. Tucker 59
Origin of Bacterial Resistance to Antibiotics. M. Demerec 63
The Action of Penicillin on *Staphylococcus:* Further Observations on the Effect of Short Exposure. Robert F. Parker and Sarah Luse 75
Pancreatic Digest Chocolate Blood Agar for the Isolation of the Gonococcus. Marie L. Koch 83
Growth of the Coli-Aerogenes Group in the Presence of Isocitrate. Stewart A. Koser and George J. Kassai 89
Vitamin Deficiencies of Seven Strains of Ectothrix, Large-spored Trichophytons Isolated from Man and Cattle. Juan E. Mackinnon and Ricardo C. Artagaveytia-Allende 91
Factors Influencing the Production of Tetanus Toxin: Gaseous Products of Growth. J. Howard Mueller, Pauline A. Miller, and Edwin M. Lerner 97
Cytochemical Mechanisms of Penicillin Action. VII. Effects on Activity of Alkaline Phosphatase. Jean Dufrenoy and Robertson Pratt 99
The Utilization of Carbon Compounds by Some *Actinomycetales* as an Aid for Species Determination. T. G. Pridham and David Gottlieb 107
Growth and Assimilation in Cultures of *Saccharomyces cerevisiae*. Wilbur H. Swanson and C. E. Clifton 115
The Influence of Certain Substances on the Activity of Streptomycin. III. Differential Effects of Various Electrolytes on the Action of Streptomycin. R. Donovick, A. P. Bayan, P. Canales, and F. Pansy 125
The Inhibiting Effect of Normal Serum and Its Gamma Globulin Fraction upon the Variation of *Staphylococcus aureus*. B. F. Hoerlein 139
Note:
Thermophilic Fermentation of Cellulose in Wood. George J. Hajny, C. H. Gardner, George J. Ritter, and Elizabeth McCoy 141

No. 2, AUGUST, 1948

Nonspecific Antistreptolysin Reactions and Serum (or Pleural-Exudate) Cholesterol. Thorolf Packalén 143
A Method for Investigating Large Microbial Populations for Antibiotic Activity. Albert Kelner 157
The Nutritional Requirements of Treponemata. I. Arginine, Acetic Acid, Sulfur-containing Compounds, and Serum Albumin as Essential Growth-promoting Factors for the Reiter Treponeme. Harry Eagle and Harry G. Steinman 163
A Quantitative Analysis of the Resistance of Mycobacteria to Streptomycin. Diran Yegian and Robert J. Vanderlinde 177

The Endotoxin of *Pasteurella pseudotuberculosis*. A. S. Lazarus and M. M. Nozawa . . . 187
The Partial Purification of Staphylocoagulase and the Effect of Certain Presumptive Inhibitors upon Its Plasma-coagulating Action. Burnham S. Walker, Matthew A. Derow, and Norwood K. Schaffer . . . 191
The Effects of Lysolecithin on the Growth of *Lactobacillus casei* in Relation to Biotin, Pantothenic Acid, and Fat-soluble Materials with Biotin Activity. William Trager . . . 195
The Serial Passage of Mixtures of Different Strains of Influenza Virus in Embryonated Eggs and in Mice. John Y. Sugg and Thomas P. Magill . . . 201
Observations on Bacteria Sensitive to, Resistant to, and Dependent upon Streptomycin. Tom Fite Paine, Jr., and Maxwell Finland . . . 207
Unidentified Nutrients in Tetanus Toxin Production. J. Howard Mueller and Pauline A. Miller . . . 219
The Effect of "Tween 80," Bovine Albumin, Glycerol, and Glucose on the Growth of *Mycobacterium tuberculosis* var. *hominis* (H37Rv). Theodore H. Sattler and Guy P. Youmans . . . 235
The Effect of "Tween 80" *in Vitro* on the Bacteriostatic Activity of Twenty Compounds for *Mycobacterium tuberculosis*. Anne S. Youmans and Guy P. Youmans . . . 245
The Reversal of Benzimidazole Inhibition of Growth by Nucleic Acid. I. M. Klotz and Margaret Mellody . . . 253
Note:
Growth Inhibition of the H37 Strain of Human Tubercle Bacilli by β-2-Thienylalanine and Its Prevention by Phenylalanine. W. F. Drea . . . 257

No. 3, September, 1948

Streptomyces griseus (Krainsky) Waksman and Henrici. Selman A. Waksman, H. Christine Reilly, and Dale A. Harris . . . 259
The Respiration of *Salmonella* in the Presence of Agglutinating Serum. J. O. Harris . . . 271
The Effect of pH upon the Bacteriostatic Activity of Certain Nitrophenols. Philip B. Cowles and Irving M. Klotz . . . 277
The Production, Assay, and Antibiotic Activity of Actidione, an Antibiotic from *Streptomyces griseus*. Alma J. Whiffen . . . 283
The Relationship of Varicella and Herpes Zoster: Electron Microscope Studies. Geoffrey Rake, Harvey Blank, Lewis L. Coriell, Frederick P. O. Nagler, and T. F. McNair Scott . . . 293
Observations on *Streptomyces griseus*. II. Nitrogen Sources for Growth and Streptomycin Production. Eugene L. Dulaney . . . 305
Studies on the Physiology of a Streptomycin-producing Strain of *Streptomyces griseus* on Proline Medium. H. Boyd Woodruff and Myrle Ruger . . . 315
Studies on the Retention of Hexachlorophene (G-11) in Human Skin. W. J. Fahlberg, J. C. Swan, and C. V. Seastone . . . 323
Anaerobic Formation of Fumaric Acid by the Mold *Rhizopus nigricans*. Jackson W. Foster and John B. Davis . . . 329
Evaluation of Precursors for Penicillin G. Kesar Singh and Marvin J. Johnson . . . 339
Streptomycin-dependent Bacteria in the Identification of Streptomycin-producing Microorganisms. Robert J. Vanderlinde and Diran Yegian . . . 357
Carbon Assimilation Tests for the Classification of Yeasts. Lynferd J. Wickerham and Kermit A. Burton . . . 363
Notes:
A Single Solution Indicator for Anaerobiosis. John A. Ulrich and Arlene M. Larsen . . . 373
Mutation to Tryptophan Independence in *Eberthella typhosa*. Mercedes de la Garza Curcho . . . 374
The Relationship between Prodigiosin Production and Catalase Activity. P. V. Crichton and A. S. Lazarus . . . 375

No. 4, October, 1948

A Biochemical and Serological Study of a Group of Identical Unidentifiable Gram-negative Bacilli from Human Sources. Isabelle G. Schaub and Frank D. Hauber . . 379
Further Studies on the Gram Stain. Herman Baker and Walter Lyon Bloom 387
Prophylactic Immunization against *Streptococcus sanguis*. Erna Alture-Werber and Leo Loewe 391
Studies on the Behavior of Fungi in the Presence of Radioactive Isotopes. I. A. Pearson, J. M. Hammer, K. E. Corrigan, and H. S. Hayden 397
The Growth of T2 Virus on Ultraviolet-killed Host Cells. Thomas F. Anderson 403
Antigenic Relationships of 765 *Paracolobactrum intermedium* Cultures. C. A. Stuart, Mildred M. Galton, and Virginia McGann 411
An Unusual Type of O Agglutination. C. A. Stuart, Robert Feinberg, and Richard Feinberg 419
The Effects of Nitrogen Mustard on *Escherichia coli*. Vernon Bryson 423
Characteristics of Tartrate-fermenting Species of *Clostridium*. Joseph Tabachnick and Reese H. Vaughn 435
The Isolation of L Type Cultures from *Bacteroides* with the Aid of Penicillin and Their Reversion into the Usual Bacilli. L. Dienes 445
Mutation in *Streptomyces flaveolus* Induced by X-rays and Ultraviolet Light. Albert Kelner 457
Streptomyces venezuelae, N. Sp., the Source of Chloromycetin. John Ehrlich, David Gottlieb, Paul R. Burkholder, Lucia E. Anderson, and T. G. Pridham 467
The Influence of Subculture Media on Results Obtained in Disinfectant Testing. F. W. Tilley 479
Bacteriologic Studies on Aureomycin. Thomas Fite Paine, Jr., Harvey Shields Collins, and Maxwell Finland 489
Pyruvic Acid Metabolism: A Factor Required for Oxidation by *Streptococcus faecalis*. D. J. O'Kane and I. C. Gunsalus 499
Notes:
A Note on the Susceptibility of *Hemophilus influenzae* Type B to Bacitracin. Florence L. Evans 507
A Satisfactory Medium for the Isolation, Cultivation, and Maintenance of Viability of *Vibrio fetus* (Bovine). I. Forest Huddleson 508

No. 5, November, 1948

Observations on the Growth of Psittacosis Virus in Chorioallantoic Membranes by Electron Microscope. F. Heinmets and O. J. Golub 509
Studies on Streptomycin. III. The Effect of Streptomycin on the Metabolism of Resting Bacteria and on Certain Purified Enzymes. Jane Henry, Richard J. Henry, Riley D. Housewright, and Sam Berkman 527
Factors Influencing Histoplasmin Formation. S. B. Salvin and G. A. Hottle 541
The Influence of Sodium Acetate upon the Dissociation of a Strain of Hemolytic Streptococcus. Alice P. McIlroy, A. E. Axelrod, and Ralph R. Mellon 547
Studies on Heat Resistance. I. Increasing Resistance to Heat of Bacterial Spores by Selection. Franklin L. Davis, Jr., and O. B. Williams 555
Studies on Heat Resistance. II. Comparison of Resistance to Heat with Resistance to Disinfectants. Franklin L. Davis, Jr., Orville Wyss, and O. B. Williams 561
New Preparation Techniques for the Electron Microscopy of Bacteria. James Hillier, Georges Kanysi, and Richard F. Baker 569
The Interdependence of Medium Constituents in Citric Acid Production by Submerged Fermentation. Ping Shu and Marvin J. Johnson 577
An Unusual Strain of Streptococcus Isolated from Subacute Bacterial Endocarditis. Helen Auerbach and Oscar Felsenfeld 587

Electron Micrograph Studies of Two Strains of Pleuropneumonialike (L) Organisms of Human Derivation. William E. Smith, James Hillier, and Stuart Mudd..... 589
L-Type Variation and Bacterial Reproduction by Large Bodies as Seen in Electron Micrograph Studies of *Bacteroides funduliformis*. William E. Smith, Stuart Mudd, and James Hillier..... 603
The Intestinal Microflora of Hens as Influenced by Various Carbohydrates in a Biotin-deficient Ration. K. R. Johansson, W. B. Sarles, and Stanley K. Shapiro..... 619
Bacterial Population Changes in the Ceca of Young Chickens Infected with *Eimeria tenella*. K. R. Johansson and W. B. Sarles..... 635
A Comparative Study of the *in Vitro* Bacteriostatic Action of Some Simple Derivatives of Furan, Thiophene, and Pyrrole. William C. Ward and Matt C. Dodd..... 649
The Culture and Physiology of a Thermophilic Cellulose-fermenting Bacterium. R. H. McBee..... 653
Biochemical Properties of the Toxins of *Clostridium novyi* and *Clostridium hemolyticum*. R. C. Bard and L. S. McClung..... 665
Induced Biochemical Mutants of *Azotobacter agilis*. J. L. Karlsson and H. A. Barker. 671
Fungi Capable of Growing in Strongly Acid Media and in Concentrated Copper Sulfate Solutions. Owen Sletten and C. E. Skinner..... 679
Enzymic Activity of Bacteriophage-Culture Lysates. I. A Capsule Lysin Active against *Klebsiella pneumoniae* Type A. James C. Humphries..... 683
Notes:
Detection of Fermentative Variants with Tetrazolium. Joshua Lederberg..... 695
Microbiology of Spray-dried, Whole-Egg Powder. V. Aerobic Mesophilic Spore-forming Bacilli Isolated at 55 C. Alice J. Watson..... 696
Properties of Some Colonial Phase Variants of *Corynebacterium renale*. E. S. Feenstra, F. Thorp, Jr., and M. L. Gray..... 697

No. 6, DECEMBER, 1948

The Consequences of Mutation during the Growth of Biochemical Mutants of *Escherichia coli*. I. The Pattern of Adaptation of Histidineless Cultures. Francis J. Ryan and Lillian K. Schneider..... 699
Enzymatic Studies on the Mechanism of the Resistance of Pneumococcus to Drugs. I. Studies of the Dehydrogenase Activities of Interrelationships of Pneumococci Susceptible and Resistant to Acriflavine, Atabrine, Optochin, Propamidine, and Sulfonamides. Joseph S. Gots and M. G. Sevag..... 709
Enzymatic Studies on the Mechanism of the Resistance of Pneumococcus to Drugs. II. The Inhibition of Dehydrogenase Activities by Drugs; Antagonistic Effects of Riboflavin to Inhibitions. M. G. Sevag and Joseph S. Gots..... 723
Enzymatic Studies on the Mechanism of the Resistance of Pneumococcus to Drugs. III. Experimental Results Indicating Alteration in Enzyme Proteins Associated with the Development of Resistance to Drugs. M. G. Sevag and Joseph S. Gots.. 737
Circulin, an Antibiotic from a Member of the *Bacillus circulans* Group. I. Bacteriological Studies. Charlotte McLeod..... 749
Morphologic Characteristics of Certain Cultured Strains of Oral Spirochetes and *Treponema pallidum* as Revealed by the Electron Microscope. Edward G. Hampp, David B. Scott, and Ralph W. G. Wyckoff..... 755
The Control of *Salmonella* Infections in Colonies of Mice. Charles A. Slanetz..... 771
Tracer Studies on the Role of Acetic Acid and Carbon Dioxide in the Fermentation of Lactate by *Clostridium lacto-acetophilum*. J. V. Bhat and H. A. Barker..... 777
The Nutritional Requirements of *Clostridium aceticum*. J. L. Karlsson, B. E. Volcani, and H. A. Barker..... 781
Microorganisms in the Cecal Contents of Rats Fed Various Carbohydrates and Fats. H. Nath, V. H. Barki, W. B. Sarles, and C. A. Elvehjem..... 783
An Analysis of the Action of Proflavine on Bacteriophage Growth. Ruth A. C. Foster. 795

Mechanism of Propionic Acid Formation by *Propionibacterium pentosaceum*. Eugene A. Delwiche 811
Electrokinetical Studies on Bacterial Surfaces. II. Studies on Surface Lipids, Amphoteric Material, and Some Other Surface Properties. M. T. Dyar 821
Index of Authors 835
Index of Subjects 837
